### MOWH Installation Guide

Your screen will come complete with screen part of the hinge fitted during manufacture.

- A. Assemble the hinge and offer the screen into the desired position. Mark the position of the hinge, drill and secure to the frame with suitable screws (not supplied).
- B. With the screen closed, mark the position of the turnbuttons. Drill and fix with suitable screws (not supplied).
- C. Fix the handle to the screen using the screws supplied.

### MOWTT Installation Guide

Open window fully

Place screen into aperture

Push screen into place

Secure with thumbscrew and lug (bottom outside edge of screen)

Close window

Outside View – Fully fitted

### **Maintenance;**

*The Omega System is an ideal screening solution for commercial and domestic environments. Both the frames and mesh can be cleaned with a mild detergent solution. Simply sponge over and leave to dry.*
